REXAR TECHNOLOGIES, LLC

Federal IT Services · Identity · Cloud · Security

Secure identity. Reliable cloud. Mission ready.

Daryl Queener, Founder & Principal
daryl.queener@rexartech.com
rexartech.pplx.app
Fairfax County, Virginia

CORE COMPETENCIES

Identity & Access Management

Hybrid Active Directory / Entra ID modernization, conditional access, MFA rollout and identity governance built for regulated environments.

Microsoft 365 & SharePoint

Tenant administration, SharePoint Online information architecture, Teams and OneDrive, external sharing controls and collaboration governance.

Security Operations & RMF

Vulnerability remediation, security monitoring, and RMF/FISMA support: evidence collection, POA&M; tracking and documentation toward ATO.

Help Desk & Automation

Responsive Tier 1–2 end-user support paired with PowerShell automation, runbooks and formal change control that cut repeat tickets.

DIFFERENTIATORS

- 15+ years of founder experience supporting federal mission environments, including NOAA- and NIH-related programs.
- Compliance-fluent delivery: RMF/FISMA-aligned documentation, POA&M; discipline and audit-ready evidence.
- Documentation-first operations with formal ServiceNow / CAB change control.
- Small-business agility with senior-engineer attention on every engagement.

FOUNDER EXPERIENCE

Rexar Technologies was founded by Daryl Queener, a hands-on architect for hybrid identity, Microsoft 365 and secure operations, with a career spent supporting federal mission environments. That background shapes a delivery model of plain-spoken planning, rigorous documentation, careful change control and automation that makes operations predictable.

Active Public Trust (U.S. Government)
Certifications: CompTIA Security+ · MCSE · ITIL · PeopleCert AIOps Foundation

Experience described above reflects the founder's individual professional background and is not represented as contract past performance of Rexar Technologies, LLC.
